AYUSH SHUKLA

Ghaziabad, UP | +91-9369657005 | ayush.apply41@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Computer Science undergraduate combining full-stack MERN development, UI/UX design architectures, and technical leadership. Proven track record of architecting scalable web apps, machine intelligence workflows, and healthcare solutions. National hackathon winner and technical community builder specializing in high-performance digital products and user experience optimization.

EDUCATION

ABES Engineering College, Ghaziabad – B.Tech in CSE (CGPA: 7.89/10) *2024 – Present*

Uttar Pradesh State Board (UPMSP) – Intermediate, Mathematics (Percentage: 88%) *2021 – 2023*

EXPERIENCE

ONI Cares – Continuum Pregnancy Care *Oct 2026 – Present*

UI/UX Designer Intern *Remote*

- Evaluated end-to-end pregnancy care digital workflows and period-tracking modules, identifying usability gaps to optimize multi-device user journeys for mothers and medical practitioners.
- Documented interaction friction points with structured feedback logs and visual assets to streamline overall product accessibility and patient retention metrics.

Technovation Club, ABESEC *Oct 2026 – Present*

Joint Secretary (Former Graphic Designer, 1.5 Years) *Ghaziabad*

- Direct core technical operations, institutional hackathons, and collegiate club initiatives, scaling community engagement metrics across multiple engineering departments.
- Designed 40+ promotional brand assets and digital flyers, successfully expanding major event participation to over 500+ active students.

Elixir Tech Community *Jan 2026 – Present*

Social Media & Community Manager *Remote*

- Co-managed a 2,000+ member national technical ecosystem, fostering developer discussions and peer-to-peer code reviews.
- Facilitated 8+ intensive peer-learning workshops focused on Full-Stack Web Development, JavaScript tooling, and Git version control workflows.

Ignite Room *Jul 2025 – Jun 2026*

Lead Graphic Designer *Delhi*

- Spearheaded visual identity and marketing asset creation, delivering high-impact campaigns that achieved a documented 40% growth in digital reach.

PROJECTS

HR Pulse – Enterprise HR Management System Live Demo | GitHub

- Engineered an enterprise-grade MERN platform with role-based access control and 7+ modules including employee tracking, automated payroll, attendance logging, and performance reviews.
- Implemented secure JWT stateless authentication and optimized database aggregations using MongoDB, reducing server response latency by nearly 35%.

Tech Stack: React, Node.js, Express.js, MongoDB, JWT, Tailwind CSS

WorkRadar – Predictive Workforce Analytics Platform Live Demo | GitHub

- Developed a 0–100 task-delay risk calculation engine evaluating progress velocity, blockers, and workload parameters to provide proactive management analytics.
- Integrated responsive data visualizations using Recharts to empower executive managers with real-time bottleneck tracking.

Tech Stack: React, Vite, Node.js, Express.js, MongoDB, JWT, Recharts

AYUSH-UI – UI/UX & Frontend Portfolio Live Portfolio | GitHub

- Designed and deployed an interactive portfolio showcasing 10+ professional UI/UX design prototypes and full-stack web applications with responsive layouts and motion effects.

Tech Stack: React, Vite, Tailwind CSS, Framer Motion, Vercel

TECHNICAL SKILLS

Languages: Java, C, C++, Python, JavaScript (ES6+), SQL, HTML5, CSS3

Frontend: React.js, Next.js, Vite, Tailwind CSS, Redux Toolkit, Framer Motion

Backend & DB: Node.js, Express.js, RESTful APIs, JWT Authentication, MongoDB, Mongoose, MySQL, PostgreSQL

Tools Design: Figma, Adobe Illustrator, Photoshop, Git, GitHub, Postman, Vercel, Linux CLI

ACHIEVEMENTS & CERTIFICATIONS

- **National Hackathon – 2nd Runner-Up:** Ranked 3rd among 120+ teams; secured 1st position in the Healthcare Innovation Track.
- **BuildSprint – Winner:** Won 1st place in Technovation's intra-college competitive hackathon hosted at ABESEC.
- **Hackathon Finalist:** Competed as a finalist in NeuroHACK (Shaastra, IIT Madras), JJK Hackathon, and Hack4Health.
- **Problem Solving:** Solved 350+ data structures and algorithmic problems across LeetCode and GeeksforGeeks using Java/C++.
- **Code for Bharat Season 2:** Selected and participated as a premier national-level finalist in an open innovation coding challenge.
